About The Institute

ACS College of Engineering (ACSCE), Bengaluru was established in 2009 by Moogambigai Charitable and Education Trust. ACSCE affiliated to VTU Belagavi, Approved by AICTE and GoK. ACSCE is accredited by NBA, NAAC and ISO Certified Institute has nine departments covering the major engineering, science and humanities disciplines. The campus is on a 30 sprawling hectares of land with, beautiful landscapes, the campus provides an ideal environment for learning. The city of Bengaluru is the gateway of Silicon Valley of India and is well connected with all the major cities in the country by rail, road and air. Climate during March in the Campus is very pleasant with temperatures ranging from 26–35°C. Buses, auto-rickshaws and taxis (from all parts of Bengaluru) are available to travel to ACSCE Campus.

About PCRA:

Petroleum Conservation Research Association (PCRA) is a registered society set up under the aegis of Ministry of Petroleum & Natural Gas, Government of India. As a non-profit organization, PCRA is a national government agency engaged in promoting energy efficiency in various sectors of economy. It helps the government in proposing policies and strategies for petroleum conservation, aimed at reducing excessive dependence of the country on oil requirement. Over the years, PCRA has enlarged its role in improving productivity in use of various sources of energy.

Scope and Objectives:

In today's world, energy is the most crucial input and indicator for socio-economic development of a nation. In our country, there is a gap between demand of petroleum products and indigenous supply of crude oil, which is made up through import every year. Country's heavy dependence on oil import to the tune of approx. 78.5% is resulting

in huge outgo of foreign exchange year after year. Government has taken up an ambitious plan to reduce country's dependency on Import of Energy by 10% by the year 2021-22. As a part of its mandate, Petroleum Conservation Research Association (PCRA), under the aegis of Ministry of Petroleum and Natural Gas is actively engaged in promoting fuel conservation awareness and providing solutions to various sectors of economy. PCRA, with the help of other stake holders, is also engaged in developing Fuel Economy Norms for Heavy Duty Vehicles and Standards & Labeling Programme (Star Rating) for equipment using fuels like Domestic LPG Stoves, Diesel Mono set Pumps used in Agriculture and DG Sets.

The objective: Technical Seminar is to create awareness among the participants on energy conservation and potential of employment opportunities will be discussed.

The outcome: The proposed Technical Seminar will provide the awareness and possibilities of doing the career in this sector.

Technical Seminar Contents:

Thermal and Electrical Energy Conservation Practices in

- Domestic Sector
- Transport Sector
- Agricultural Sector
- Service Industries Sector
- Hospital/College/School and Hotels
- Small, Medium and Heavy Industries

One day National Technical Seminar On "Energy Conservation and Management: Career Opportunities"
