

ACS COLLEGE OF ENGINEERING BENGALURU

IISc Extended Lecture Programme -1

Prof. Durkesh S Nadig Principal Research Scientist, Centre of Cryogenic Technology, IISc Bengaluru has delivered IISc Extended Lecture on **“Introduction to Cryogenics”** to our third year Aeronautical and Mechanical Engineering Students at Second Floor Seminar Hall at 2.10PM to 3.20PM on 21st August 2017. Dr.M.Eswaramoorthy welcomed the Guest Speaker by Flower Bouquet.

Prof. Durkesh S Nadig has covered the following topics in his lecture: the basics of cryogenics, properties of various cryogenics fluids, the facilities available at Centre for Cryogenic Technology, and various applications of cryogenics along with some case studies through video have explained.

The students are learned the course beyond the syllabus from an expert available at IISc under Extended Lecture Programme. Prof. R.R.Elangovan HOD of Aeronautical Engineering has given the memento to the guest speaker on behalf of the Management and Principal.
