A.C.S. College of Engineering
Kambipura, Mysore Road, Kengeri Hubli,
Bangalore - 560 074

Participants

The interested students of specified semesters from 3rd to 8th sem and M.Tech Structural Engineering will take part in all the training courses finalized by the department.

Course structure

3E-SERVICES in consultation with the Dept. shall finalize the course structure for the skill/ student development program. This will be reviewed every year and suitable changes, if required, will be incorporated. In the area of structural diagnosis, retrofitting and NDT evaluation will be imparted.

Time period

The programs will be conducted in-between the semester holidays as a Student / Faculty Development Program (FDP) at college or 3E-SERVICES office premises

SDP Co-ordinator

The principal of the college shall appoint HOD/Civil as training convener/SDP coordinator for the duration of the program, who shall liaise with **3E-SERVICES** and make the training process learner- friendly and effective. **3E-SERVICES** shall work in close relationship with the department, who in turn shall keep a close touch with the students.

Training Fees

The training fee per student for each course offered is decided and mutually agreed upon by both the parties. The training/SDP/FDP fees will be remitted in the account section of the college by the trainees/students.

This MoU is because of the skill gap that exists between academic institutions and industry requirements. This gap is to be minimized for the students of the college by facilitating them to acquire the appropriate knowledge and relevant

skills set in the area of Repair, Rehabilitation and Retrofitting of structures (3R's).

Through this collaboration, **3E-SERVICES** will prepare the students to be ready for industry by the time they enter the final semester and for this the students have to be nurtured and trained in different areas from the beginning. Keeping in mind the academic program and skill development/ placement the course contents will be designed.

3E-SERVICES shall provide:

- The required resource persons for the course and training program would be facilitated jointly.
- Training material will be provided by **3E-SERVICES** and Dept. of civil Engineering
- Periodical assessment on the progress of students for their further improvements to be mentioned by the Dept.
- The "certificate of completion" to every student who successfully completes the training program every semester.
- "Certificate of Association" from **3E-SERVICES** to the college.
- Provide permission to use **3E-SERVICES** logo as the Skill Development Partner
- Organize Campus interviews for the final year students based on the requirements for **3E-SERVICES** and its clients.
- Placement for ACSCE deserved students, whenever vacancy arises in 3E Services.

The college shall provide:

- The required facilities in the seminar hall and other required infrastructure for the training classes to be provided by the college
- Any other facilities/faculties required will be finalized on mutual discussion

Objectives of the MoU:

1. To provide employability skills to the students during their course at the college.
2. Make the student aware of the latest tools and techniques in the area of 3R in order to keep them industry ready.
3. Make the most of placement opportunities for ACSCE students.
4. To build the confidence level of the students to face the challenges of the real time problems.
5. To bridge gap between Industry and academics for the participants.
6. Conduct series of guest lectures on relevant area of interests.

This memorandum, of understanding states the terms and conditions under which the **trainings** shall be conducted by **3E-SERVICES** at the college premises and lists herein the respective responsibilities of both parties.

Preamble

For a student to be recruited by a good company, over and above the subject knowledge, he/she are expected to have the following:

- Strong fundamental engineering knowledge
- Engineering related multiple technical skills – develop skills that add value
- Communication and other soft skills

While subject knowledge would be provided by the college, **3E-SERVICES** will equip the students with required industry specific technical and people skills.
