

Department of Mechanical Engineering organized National Seminar titled **“Tribological Aspects of Mettalic Materials”** under ISTE Faculty Chapter on 16<sup>th</sup> January 2019

## **National Seminar -REPORT**

Department of Mechanical Engineering organized National Seminar titled **“Tribological Aspects of Mettalic Materials”** under ISTE Faculty Chapter on 16<sup>th</sup> January 2019. The Program held at ACS seminar hall 2<sup>nd</sup> floor from 11.00 am. The dignitaries on the dais present were: President of the event Dr. M.S. Murali, Principal, ACSCE, **Chief Guest Dr. Ananad Kumar S, IIT Jammu**, Dr. Siddesha H S, Head of the Department, Mechanical engineering, Convenor Dr. Suresh P M, Professor, PG coordinator and R&D, Department of Mechanical Engineering.

The flow of the Event is as follows:

Welcome speech and introduction of the chief Guest by Dr. H S Siddesha Head of the Department, Dr. M.S. Murali, Principal, delivered the presidential address to the gathering Chief Guest addressed the gathering with interesting taxonomy of Gear Mechanism in student life. The Vote of thanks was delivered by the convener Dr. Suresh P M, Professor, PG coordinator, Department of Mechanical Engineering.

ational Seminar titled **“Tribological Aspects of Mettalic Materials”** under ISTE Faculty Chapter on 16<sup>th</sup> January 2019

## **OUTCOMES OF THE NATIONAL SEMINAR**

After the completion of the Seminar the Students & Faculties shall have the knowledge associated with,

- The advanced materials, their synthesis and characterization
- Tribological Aspects of Metallic Materials
- The advanced manufacturing processes and their applications
- Available resources such as laboratory facilities and researchers for research work
- Quality research work, publications, conferences and also funding agencies.
