

ACS COLLEGE OF ENGINEERING

Department of Biomedical Engineering

Anatomy lab visit report

The students of 3rd semester Biomedical Engineering visited the Anatomy Lab at Rarajeswari Medical College and Hospital accompanied along with the faculty member Mr. Naveen T.S. Assistant Professor ,Department of Biomedical Engineering ,ACS College of Engineering on 4th November 2019.

Dr.Vineesh, Assistant Professor , Department of Anatomy , demonstrated and explained the anatomy of the major human organs. The students were able to see various human organs such as heart , kidney, lungs, brain, stomach, pancreas, large and small intestine, skull ,vertebral column , liver etc.

The session was from 2pm to 4pm.

Students got immensely benefitted by the demonstration and detailed explanation of various organs of human body. Since the 3rd semester students have Human Anatomy and Physiology subject in their curriculum.

Second year Biomedical Engineering students in Anatomy lab RRMCH

Dr. Vineesh , Assistant Professor , Department of Anatomy - RRMCH, demonstrating Skeletal system to the students of Biomedical Engineering.

Dr. Vineesh , Assistant Professor , Department of Anatomy - RRMCH, Explaining about the lungs to the students of Biomedical Engineering.

Dr. Vineesh , Assistant Professor , Department of Anatomy - RRMCH, Explaining about the respiratory system to the students of Biomedical Engineering.

Dr. Vineesh , Assistant Professor , Department of Anatomy - RRMCH, Explaining about the human brain to the students of Biomedical Engineering.

Dr. Vineesh , Assistant Professor , Department of Anatomy - RRMCH, Demonstrating the human skull to the students of Biomedical Engineering.

During the demonstration of various organs in the human body
