About the Event:

A 15 days training session on "Skill Training in Soft Skills & Trending Technology" collaborated with ICT Academy was organized by Department of Computer Science and Engineering from **15th March 2021 to 3rd April 2021** at ACS College of Engineering. The complete course duration of the Skill Training was 110 hours whereas soft skill training was conducted for 50 hours and Technology training was conducted for 60 hours.

Course Details:

| Course Name	Skill Training in Soft Skills & Trending Technology
Course Duration in Total	110 Hours
Soft Skills	40 Hours
Technical Skills	60 Hours
Group Discussion & Mock Sessions	10 Hours
Course Delivery	Virtual Instructor Lead Training (VILT) – Hands on Experience at the Institution Campus

Modules:

Soft Skills	• Business Communication • Personal Communication • English Grammar, Vocabulary & Accent
Technical Skills	• SQL
Interview Preparatory Skills	• Group Discussions • Mock Interviews

On account of the first session on **"Soft Skill Training"** the resource person trained on grammar, Phonetics, Vocabulary, Personal Communication, Business Communication, Group Discussion and Interview Preparatory, the sectors where the students can deploy their strength, skills and education. She also defined about what they have to learn to be better fit for roles in Corporate. The session was very interesting and gave opportunity to discuss about the types of interview, virtual interview and traits to exhibit in an interview. The basic idea of this training is to enhance the knowledge of Personality Development.

On account of the second session on **"Technical Skills"** the resource person trained on SQL.SQL is the most mainstream language that is used to access databases because it can work with any database. The databases, with which you interface, are programs that enable

clients to store and manage information in a logical manner. The aim of the training is to enhance the knowledge on SQL where it helps the student to crack the interview. This session enriched student's mastery on technical skills.
