Career choice - one of the most important milestones in an individual's life involves self analysis, critical thinking and finally decision making.

The choice of the career is influenced by views of your parents, friends, relatives, teachers and the media. Today with a wider choice and an ever increasing competition, you need to plan your career wisely and at the earliest.

While choosing a stream after 12th, a training course or a career you should know your abilities, interests, aptitudes and personality. Besides these you should gather information regarding different career options, the eligibility criteria, the premier institutions/universities, and other criteria of selection and the market demands.

Career guidance and counseling programs help individuals acquire the knowledge, skills, and experience necessary to identify options, explore alternatives and succeed in society.

It is a comprehensive, developmental program designed to assist individuals in making and implementing informed educational and occupational choices. A career guidance and counseling program develops an individual's competencies in self-knowledge, educational and occupational exploration, and career planning.
