Date:29/04/2022

About the resource person

Develop and instruct age appropriate lesson plans that encourage physical, social, emotional and academic growth.

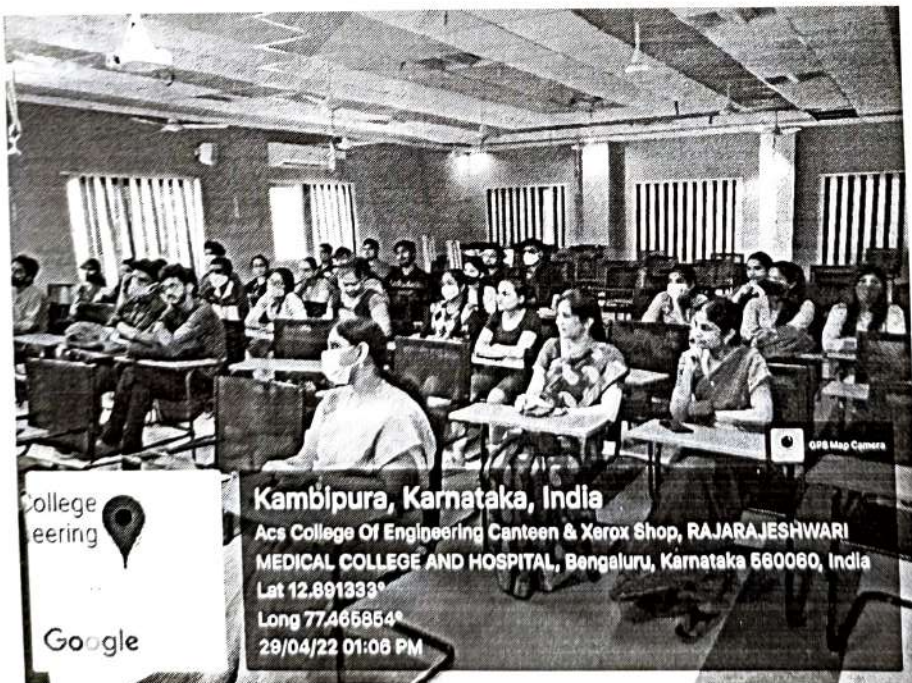

- Maintain individual child portfolios including skills checklists, labeled work samples, and send daily reports. Develop students' abilities, interests and coordinate through mode of creative activities.
- Present subject matter utilizing a range of teaching materials and techniques.
- Guide discussions and supervise work in class.
- Test and analyze students for customized progress in oral and written work.
- Enforce personal development by supporting students to utilize and develop capabilities.
- Organize the classroom as well as learning resources to develop a positive learning atmosphere.
- Prepare and facilitate positive student development.

Webinar highlights:

- Session had a very interactive session by the resource person who gave enough motivation to set our goal. The session began with the welcome of Biomedical department HOD, and the department professors.
- The session was about understanding the skills of the own and setting down a goal by writing it down. Initially the problems and fears faced by the individual while setting his/her goal were discussed by interacting with the students. Then the values and change of mindset required for deciding our own goal.
- Then the resource person asked every individual for their aim and their goals. They help students understanding the importance of short term and long term goals and how they would influence the daily routine.
- Some motivational videos were shown to students to give make them understand the strength of writing down the goals and striving to work for them to achieve it.
- Finally the session was ended by taking the feedback of the students.

Where to attend: Venue 3rd Floor Seminar Hall.
