

# ACS Bangalore

## ACTIVITY REPORT

Activity Name & Date	Trainee Engineers (Travel and Aero Domain) on 18-Jan-2022
Activity Type	Placement
Conducted By	Flynava Bangalore

### About the Activity:

The term 'Nava' in our name signifies innovation. FlyNava was established in 2015, with an idea to put an end to the stagnation that was impeding the pricing world. In April, 2017 with the launch of Jupiter, an industry-first pricing solution in the big data analytics space we not only won our first customer but also entered the US and Europe markets. Jupiter is designed to solve the strategic and tactical challenges faced by the pricing analyst while deciding on pricing, thus reducing the complexity and increasing the profitability for them. At Flynava, we believe in using open source technologies and all our methods are validated by the industrial best practices.
