Satya Pictures presents the latest Kannada short movie, "Involve". This drama movie speaks about how involved an actor can get while acting! This movie is shot by taking Heath Ledger as an example. It uses the same concept as of how involved he got while enacting the role of Joker which brought his sad demise!

Students enjoyed this short movie and got motivated with the theme of the movie that how things get messed up when a person involves in something very deeply. It conveys the information that, for everything there is a limit and it should not be crossed.

Students from all the departments were part of this short film event.
