| <b>No. of Participants</b> | : | 90 - Aerospace Students.                                |

#### About the Higher Education:

The Department of Aerospace Engineering organized on “**Drone Training and Awareness Session**” in collaboration with Dr. MGR ARI Naval and Aerospace Innovation LLP. Chennai. The program commenced at 10:45 a.m. with a welcome address delivered by the Head of the Department, Dr. C. Suresh, who also introduced the Resource person.

**The objective of the program** is to provide students with comprehensive knowledge about **Unmanned Aerial Vehicles (UAVs)**, their design, operation, and real-world applications in various sectors such as defense, agriculture, surveillance, and disaster management.

The program commenced with an introduction to drone technology, where experts elaborated on the **basic components of drones**, including flight controllers, propulsion systems, sensors, and communication modules. The participants were also introduced to the **fundamentals of drone aerodynamics, navigation systems, and control mechanisms**.

A key highlight of the session was the **hands-on training**, where students were given the opportunity to observe and operate drones under expert supervision. This practical exposure helped them understand flight stability, maneuvering, and safety protocols.

The session also covered important topics such as:

- Drone regulations and policies in India
- Safety measures and operational guidelines
- Emerging trends and career opportunities in UAV technology

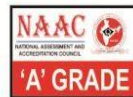

At the end of the session, students interacted with the resource persons to clarify their queries and share their experiences. Many expressed their appreciation, noting that the event was both enjoyable and engaging. The program concluded with a formal vote of thanks, marking the end of a memorable and inspiring celebration.
