

DEPARTMENT OF AERONAUTICAL ENGINEERING

Event Report (AY2025-2026)

Name of the Event	: Career Guidance Program on "Opportunities for Aerospace Engineers in Technical Publication"
Date & Time	: 07/05/2026, 11:00 AM – 12:30 PM
Place	: 4th Floor Seminar Hall, ACS College of Engineering Campus, Bengaluru
No. of Student Participants	: Aeronautical Engineering Students
Event Coordinators	: Dr. G. Ramanan
Resource Person	: Mr. Ganesh T D, Engineer, Hindustan Aeronautics Limited (HAL)

About the Event:

The Department of Aeronautical Engineering, ACS College of Engineering, organized a Career Guidance Program on "Opportunities for Aerospace Engineers in Technical Publication" on 7th May 2026. The program was conducted with the objective of creating awareness among students about the diverse career opportunities available in the field of technical publication and documentation within the aerospace industry. The session aimed to help students understand how engineering knowledge can be effectively applied in technical communication, documentation, and publication processes that support aircraft design, manufacturing, maintenance, and operations.

Campus

207, Kambipura, Mysore Road, Bengaluru - 560 074
Ph: 080 - 2974 8222, 2974 8333 Fax: 080 - 2974 9988
E-mail: info@acsce.edu.in, principal@acsce.edu.in

Event Schedule:

Time	Activity
10:45 AM – 11:00 AM	Registration and Seating of Participants
11:00 AM – 11:10 AM	Welcome Address and Introduction of Resource Person
11:10 AM – 12:00 PM	Career Guidance Session by Resource Person
12:00 PM – 12:20 PM	Interactive Discussion and Question & Answer Session
12:20 PM – 12:30 PM	Vote of Thanks and Conclusion

The program commenced at 11:00 AM in the Fourth Floor Seminar Hall with the presence of faculty members and students from the Department of Aeronautical Engineering. The session began with a welcome address highlighting the importance of exploring emerging career opportunities beyond conventional aerospace engineering roles.

The keynote session was delivered by **Mr. Ganesh T D, Engineer, Hindustan Aeronautics Limited (HAL)**, who shared his professional experiences and insights into the field of technical publication within the aerospace sector. The resource person explained how technical publications play a critical role in ensuring the safe operation, maintenance, and certification of aircraft systems.

During the session, students were introduced to various aspects of technical publication, including the preparation of maintenance manuals, technical documents, operational procedures, illustrated parts catalogs, and aircraft servicing documentation. The speaker emphasized the importance of accuracy, clarity, and compliance with international aviation standards in technical documentation.

The key topics covered during the program included:

- Introduction to Technical Publication in the Aerospace Industry
- Role of Aerospace Engineers in Technical Documentation
- Aircraft Maintenance Manuals and Technical Writing Standards
- Regulatory Requirements and Aviation Documentation Practices

Campus

207, Kambipura, Mysore Road, Bengaluru - 560 074

Ph: 080 - 2974 8222, 2974 8333 Fax: 080 - 2974 9988

E-mail: info@acsce.edu.in, principal@acsce.edu.in

- Career Opportunities in Aerospace Technical Publication
- Skills Required for Technical Writers and Documentation Engineers
- Emerging Trends in Digital Documentation and Aerospace Information Systems

The resource person also discussed the growing demand for technical publication professionals in aerospace organizations, aircraft manufacturing companies, maintenance repair organizations (MROs), and aviation support industries. Students gained valuable insights into how engineering expertise combined with communication skills can open rewarding career opportunities in this specialized domain.

An interactive question-and-answer session followed the presentation, allowing students to clarify their doubts regarding career pathways, required competencies, industry expectations, and opportunities for professional growth in technical publication. The discussion encouraged active participation and helped students better understand the practical significance of technical communication in the aerospace industry.

The program successfully broadened the students' perspective on alternative and emerging career options available to aerospace engineers. It provided valuable guidance on developing technical writing skills and understanding the critical role of documentation in ensuring aviation safety and operational efficiency.

Overall, the Career Guidance Program was highly informative and beneficial for the students. The Department of Aeronautical Engineering expresses its sincere gratitude to Mr. Ganesh T D for sharing his expertise and valuable industry insights. The department also thanks the college management for its continuous support in organizing such career-oriented programs for the benefit of students.
